Professional Summary

Drafting & Design professional proficient in AutoCAD and AutoLisp with a demonstrated ability to provide detailed drawings. Posses strong effective communication within multiple departments.

EXPERIENCE

AutoCAD/dos CAD Manager - Simon Property Group, Indianapolis, IN (March 1990 - April 2020)

- Mall of America – I was hired specifically to assist in drawing MOA on CAD by getting updates from our Minneapolis group down and into the hands of our Indianapolis team. This was the first and only time that Simon gathered all the different disciplines on one floor. I updated all aspects of the mall drawings working directly with each discipline and conveying this information back to the Minneapolis team. I traveled to assist in training a coworker who would work in the mall offices as well as providing verbal tours to any media during grand opening.
- Circle Center Mall was also primarily done on CAD. My experience with MOA allowed me to be the only CAD operator inhouse from inception to completion. I would visit with site often working out discrepancies and field verified spaces. This led to my creating a tenant scenario drawing or TSD. This drawing showed the mall as well as the individual tenant space on one 8 ½ x 14 sheet. It is now widely used as a staple across all disciplines.
- I had over 30 malls in my portfolio including Town Center at Boca, Forum Shops in Las Vegas, Keystone and Castleton in Indianapolis.
- Contributed and integrated multiple AutoLisp programs. Instigated drawing standards. I was a reference that each CAD operator would come to for answers.

CAD Manager - 3D Group, Incorporated, Columbus, Ohio (Oct. 1989 - March 1990)

- Mall Strip Centers and Apartment Complexes - utilizing ARRIS 386/XENIX/DOS System.

UNIX/ARRIS CAD Operator - Kontogiannis & Associates, Columbus, Ohio (April 1986 - Oct. 1989)

- Worked on all phases of apartment and commercial building construction documents.
- I worked primarily on the Greek Orthodox Church.

CAD Operator Draftsman - Delta Industries, Columbus, Ohio (March 1985 - April 1986)

- Residential and Commercial Buildings, using a Sigma III Terminal with UNIX Language

Special Skills

- AutoCAD, AutoLisp, VBA, HTML, JavaScript, CSS, Microsoft Word, Excel

EDUCATION

1980 – 1985	Ohio State University, Columbus, Ohio Student of Architecture
1978 - 1980	Hocking Technical College, Athens, Ohio A.S. - Drafting and Design
1976 – 1978	Ohio University, Athens, Ohio ROTC
